-			
(st	e SMART Digital DDA is a compact positive displacement repper motor) and intelligent control electronics with min	ent, diaphr imum enei	agm dosing pump with variable-speed driving consumption. The SMART Digital Dos
se	ries operates at full stroke length to ensure optimum acc	curacy, pri	ming and suction, even for high-viscosity
	gassing liquids. The duration of each discharge stroke v nooth and continuous discharge flow.	varies acco	ording to the capacity set, resulting in optir
	<b>v</b>	Harant no.	
ac	e click-stop mounting plate allows installation in three d cessories. The control cube can be turned easily into fro	ont. left or	right position. The click wheel and the
m	ulti-coloured backlit graphical, plain-text LC display make	e commiss	sioning and operation intuitive. The contro
ele	ements are protected by a transparent cover.		
Th	e sensor-based FlowControl (FC) system detects malfu	nctions di	rectly in the dosing head and displays the
pla	ain text in the alarm menu, e.g. air bubbles, line burst, ov	verpressur	re. The integrated flow measurement func
(0)	nly FCM) measures the actual flow and makes additiona $\pm$ 1,5 % of set value in case of trouble-free process). Th	al monitorir	ng and control equipment redundant (accu
the	$\pm$ 1,5 % of set value in case of fouble-free process). The process control, e.g. SCADA. Furthermore, the AutoFI	owAdapt f	unction (only FCM) automatically adjusts
pu	mp speed according to the process conditions to mainta	ain target f	low even at e.g. varying backpressure or
bu	bbles foaming (degassing drive strategy).		
-			
liu	<ul> <li>e dosing head is composed of:</li> <li>Long lifetime and universal, chemically resistant ful</li> </ul>	I-PTEE dia	anhragm
	<ul> <li>Double ball valves for highest dosing accuracy.</li> </ul>		apinagin.
	- Deaeration valve for easy start-up.		
	- Pressure sensor.		
	peration modes:		
	- Manual dosing in ml/h, l/h or gph.		
	- Pulse control in ml/pulse (incl. memory function).		
	- Analog control 0/4-20 mA (scalable).		
	<ul> <li>Pulse-based batch function in ml, I or gal.</li> <li>Timer-based batch function (Dosing timer, cycle or</li> </ul>	wook)	
	<ul> <li>Fieldbus control (Genibus prepared for ProfibusDP)</li> </ul>	,	
		L 50/1).	
Ot	her features:		
	<ul> <li>Auto deaeration during pump standby to avoid breat</li> <li>Two SlowMode steps (anti-cavitation), 50 % (maxing)</li> </ul>		
	for high-viscosity or degassing liquids.	num now.	13 mil and 23 % (maximum now. 7.3 mi),
	- Service information display to show when service a	nd which	wear-part order number is required.
	- Two-step key lock function to protect the pump aga		
	- Additional display function to provide further inform		
	<ul> <li>Counter for total dosed volume (resettable), operati</li> <li>Save and load customised settings as well as reload</li> </ul>		
	- Save and load customised settings as well as reloa		iy settings.
Si	gnal inputs/outputs:		
	<ul> <li>Input for pulse, analog 0/4-20mA, external stop.</li> </ul>		
	<ul> <li>Input for low-level and empty-tank signal.</li> <li>Two potential-free output relays for max. 30 V AC/E</li> </ul>	C (config	urable e a alarm stroko signal pump da
	timer etc.)		urable, e.y. alarni, suoke signal, pump do
	- Output analog 0/4-20mA.		
	- Fieldbus communication interface (GeniBus, also for	or addition	al Profibus DP E-box to retrofit).
Ing	stallation set includes:		
	- 2 pump connections (Hose 9/12 mm 6).		
	- Foot valve (without level switch).		
	- Injection unit.		
	- 6 m PE discharge hose.		
1	<ul> <li>2 m PVC suction hose.</li> </ul>		

	Date:	04/02/2020			
Description					
- 2 m PVC deaeration hose (4/6 mm).					
Fechnical:
